---

***The St Lucie County Pretrial Release Program is funded through the St Lucie County Board of County Commissioners, under the office of the County Attorney, with direct supervision of the St Lucie County Criminal Justice Coordinator. In addition, Okeechobee and Martin Counties have contracted with St. Lucie County to provide pretrial and GPS monitoring services for their respective counties.***

---

**ST. LUCIE COUNTY PRETRIAL PROGRAM**  
**2018 ANNUAL REPORT (PER F.S. 907.043)**  
**(January 1, 2018 – December 31, 2018)**

- Section I.** Required questions and answers per F.S. 907.043 “Citizens Right-to-Know Act”
- Section II.** Charts and graphs for statistical data required to provide answers to the questions in Section I. (Per F.S. 907.043) (Including separate data for the Programs in St. Lucie, Okeechobee and Martin Counties)
- Section III.** Summary and explanation of statistical data, services provided, required conditions, and plans for expansion and accomplishments of The St. Lucie County Pretrial Program
- 

The St. Lucie County Pretrial Release Program ("Program") has been staffed by county employees since June 2007. The Program was initially started in order to provide supervision of pretrial defendants and to alleviate jail over-crowding. The Program has since been expanded to provide supervision of other cases when ordered by the Judiciary. As a result, defendants have been sanctioned to the program from Drug Court, Mental Health Court, while pending appeal, and or while their cases are pending for Violation of Probation (County Court). In addition, due to the success of the Program, several of the County Court Judges requested that the Program take sentenced cases (misdemeanors only), as a condition of probation. The enhanced supervision conditions can include GPS monitoring, field visits (which are not provided by county probation services), along with house arrest and curfew requirements as an alternative to a county jail sentence.

In the spring of 2015, Okeechobee County requested the St. Lucie Pretrial Program assist them with their jail overcrowding issues. Okeechobee County has since developed a Public Safety Coordinating Council and it was recommended that they create a Pretrial Release Program with St. Lucie County's assistance. An inter-local agreement was drafted and presented to the Board of County Commissioners in both counties, which was approved. In August 2015, the St. Lucie County Pretrial Program began supervising the first cases in Okeechobee County.

Following in Okeechobee County's footsteps, the Martin County Sheriff's Office contacted St. Lucie County Pretrial to inquire about the possibility of the St. Lucie

County Pretrial Program providing pretrial supervision and GPS monitoring services to ease their jail overcrowding issues. An inter-local agreement was drafted and passed by both County's Board of County Commissioners. On October 1, 2018, the Martin County Division of the St. Lucie County Pretrial Program began supervising the first cases in Martin County.

In 2018, the program provided significant savings in St. Lucie County, when you consider a basic inmate (not including any medical costs) can cost St. Lucie County \$90.00 per day. As a result of the program, approximately 72,401 "bed days" were saved from jail incarceration during 2018. The projected savings (again, not including medical costs) would be approximately \$6,516,090.00. It is estimated that over 50% of the cases supervised have medical conditions that require treatment that could easily add several million dollars in additional savings. Again, this is based on the fact that the St. Lucie County Jail was no longer responsible for the medical cost due to the defendant's release.

The program also provided significant savings in Okeechobee County, where a basic inmate (not including any medical costs) can cost the county \$70.00 per day. As a result of the program, approximately 7,426 "bed days" were saved from jail incarceration during 2018. The projected savings (again, not including medical costs) would be approximately \$519,820.00. It is estimated that over 50% of the cases supervised in Okeechobee County also have medical conditions that require treatment that could easily add several hundred thousand dollars in additional savings. Again, this is based on the fact that the Okeechobee County Jail was no longer responsible for the medical cost as a result of the defendant's release.

As stated above, we also contracted with Martin County and began running their Pretrial Program on October 01, 2018. In the first 3 months of the program, Martin County also saw significant savings on "bed days". For a basic inmate (not including medical expenses) the average cost is \$90.00 per day. In the first quarter of this program, 1426 "bed days" were saved from jail incarceration in 2018. The approximate savings was \$128,340, not including medical expenses. It is estimated that over 50% of the cases supervised have medical conditions that require treatment that could easily add several hundreds of thousands of dollars in additional savings. Again, this is based on the fact that the Martin County Jail was no longer being responsible for the medical cost due to the Defendant's release.

## Requirements for Pretrial Release Program per Florida Law

*The following data provides the specific information required by Section 907.043 (4) (a), Florida Statutes (2012) for the annual report. There will be additional information (not required by Section 907.043) in other sections.*

**(4)(a)** No later than March 31 of every year, each pretrial release program must submit an annual report for the previous calendar year to the governing body and to the clerk of the circuit court in the county where the pretrial release program is located. The annual report must be readily accessible to the public.

**(b)** The annual report must contain, but need not be limited to:

**1.** The name, location, and funding sources of the pretrial release program, including the amount of public funds, if any, received by the pretrial release program.

*The St Lucie County Pretrial Program is located in the St Lucie County Courthouse, 218 South Second St., Fort Pierce, FL 34950, and is fully funded by the St Lucie County Board of County Commissioners. The Program is funded through the Fine and Forfeiture Fund. The 2018 budget was \$1,169,576.18, which includes funding, per their contract, from Martin and Okeechobee Counties.*

**2.** The operating and capital budget of each pretrial release program receiving public funds.

*St Lucie County Board of County Commissioners' actual budget was \$1,069,525.02 (which includes the GPS monitoring cost) for 2018.*

**3a.** the percentage of the pretrial release program's total budget representing receipt of public funds.

*The Program is 100% County funded.*

**b.** The percentage of the total budget which is allocated to assisting defendants obtain release through a non- publicly funded program.

*At this time, the program (including the GPS monitoring cost) is fully funded by St Lucie County Board of County Commissioners, Okeechobee County Board of County Commissioners and Martin County Sheriff's Office.*

**c.** The amount of fees paid by defendants to the pretrial release program.

*Some defendants have been ordered by the Court to pay toward their Supervision/GPS monitoring cost. The amount collected (for January-December 2018) was \$1356.00, of which \$1356.00 was for Pretrial Defendants.*

**4.** The number of persons employed by the pretrial release program.

*Professional staff consists of 14 positions (A Program Manager, two Supervisors, two Senior Officers, seven Pretrial Officers and two Case Managers).*

5. The number of defendants assessed and interviewed for pretrial release.

***The St Lucie County Pretrial Program does not assess and interview defendants for pretrial release.***

6. The number of defendants recommended for pretrial release.

***The St Lucie County Pretrial Program does not make recommendations but can review cases to determine if they meet criteria or court-ordered conditions (per occasional request of judges).***

7. The number of defendants for whom the pretrial release program recommended against non-secured release.

***The program does not recommend whether the release should be secured or non-secured. The Judiciary makes that decision.***

8. The number of defendants granted non-secured release after the pretrial release program recommended non-secured release.

***The program does not recommend whether the release should be secured or non-secured. The Judiciary makes that decision.***

9. The number of defendants assessed and interviewed for pretrial release that were declared indigent by the court.

***St. Lucie County 540, Okeechobee County 73, Martin County 25  
Total = 638***

10. The name and case number of each person granted non-secured release (ROR) who:

a. Failed to attend a scheduled court appearance.

***No defendant that was released ROR failed to appear for a court hearing in 2018.***

b. Was issued a warrant for failing to appear.

***No defendant that was released ROR was issued a warrant for failing to appear for a court hearing in 2018***

c. Was arrested for any offense while on release through the pretrial release program.

**Name:**

**Case Number:**

***Murphy, Bret, James***

***562018MM001982***

***King, Jacari, Oshea***

***562018CF002194***

***Mendoza, Anna***

***472018MM000225***

***Frost, Jarvis, Jamar***

***472018CF000089***

***Bradley, Ashley, Marie***

***472018CF000566***

**Bond, Todd**

**472018MM000288**

**11.** Any additional information deemed necessary by the governing body to assess the performance and cost-efficiency of the pretrial release program.

**2018 Annual Report and Summary – SLC Pretrial Program**

***The St. Lucie County Pretrial Program is county-funded, providing both pretrial and post-trial supervision by court order. The program was initially created to assist in alleviating jail over-crowding, however it has expanded to help reduce the cost to the County for medical treatment of inmates with serious (and costly) medical issues, while insuring public safety. Section 907.043(4) (b), Florida Statutes requires specific data be provided in an annual report. In addition, the Program also submits a detailed breakdown of the data in three formats (a combined report, a pretrial report, and a sentenced report). The Program will soon be twelve years old, with approximately 8,100 cases ordered for supervision during that time. Supervision can include GPS monitoring with house arrest, curfews, and exclusion zones in cases involving a victim. Drug and alcohol testing through the SLC Drug Lab, portable breathalyzer for quick alcohol testing in the field, weekly reporting (or more often) to the office, and field / residence checks (seven days a week including holidays, and response to GPS alerts 24/7 as needed) are also required as conditions of release to insure compliance with court orders.***

***During 2018, there were 599 new defendants that entered the program, with 120 carry-overs from the 2017 year, with a total of 719 defendants supervised. There were 3,453 field/residence checks done during the year. The Program continues to use GPS and enhanced supervision for release of medical cases from the jail (to reduce the cost to the county for on-going treatment, surgical procedures and terminal defendants). Approximately 72,401 “bed days” were saved at the rate of \$90 per day (without medical), at a projected savings of over \$6,516,090.00. The daily GPS cost per unit is now \$3.18 (down from \$8.00 per day in 2007), which provides for a tremendous savings when an inmate could cost several thousand dollars a day for medical care.***

***The St. Lucie County Pretrial program also supervised defendants in Okeechobee County. Eighty-One (81) new pretrial defendants and 25 defendants were carry overs from 2017 for a total of 106 defendants being supervised in 2018. There were 558 field/ residence checks conducted during the year. The Program continues to use GPS and enhanced supervision for release of medical cases from the jail (to reduce the cost to the county for on-going treatment, surgical procedures and terminal defendants). At a rate of \$70.00 per day, a total of 7,426 “bed days” were saved for a total savings (excluding medical costs) of \$519,820.00.***

***On October 01, 2018, St Lucie County Pretrial began providing supervision services for Martin County. In the last 3 months of 2018, 34 defendants entered***

***the program. There were 41 field/ residence checks conducted. The Program continues to use GPS and enhanced supervision for release of medical cases from the jail (to reduce the cost to the county for on-going treatment, surgical procedures and terminal defendants). There were 1426 “bed days” saved at a rate of \$90.00 per day. This equated to a savings of \$128,340.00 in savings (excluding medical costs).***

***The St. Lucie Pretrial Program utilizes 4 different labs sites for drug testing. One lab is located at the 218 South 2<sup>nd</sup> St. Fort Pierce, FL, another is located at 1680 Lyngate Drive Port St. Lucie, FL, the third is located at 406 NW 3<sup>rd</sup> Avenue, Okeechobee, FL and the fourth is located at 435 SE Flagler Ave., Stuart, FL. Regardless of which County the defendant is on pretrial supervision with, they are allowed to select the lab that is most convenient for them. In 2018, the total number of drug tests ordered and conducted by all 4 labs was 1969.***

***The Program was initially started strictly for “pretrial supervision”, as an alternative to jail incarceration. The program provides the court with options for supervision of defendants pending disposition of criminal cases both in County and Circuit Court. While jail over-crowding was one factor that was of main concern at the time, the cost of jail medical care and treatment was also a major concern. Allowing specific defendants to be released under restrictive conditions to continue medical treatment or surgery, provided for savings to both the county and the jail (with the defendants using their own insurance or resources). In addition, the Judges requested consideration of the program providing enhanced supervision (as a condition of probation), to allow specific type cases to serve their sentence without incarceration (not losing their job, providing for their family, and at times receiving treatment and care for substance abuse, medical and mental health issues). More recently, the program has been used as a diversion or intervention for the purpose of getting the defendant “back on track”. At times, a defendant may be in need of resources such as relocation of residence (especially in the instance of a domestic situation involving a victim), referral to services for substance abuse or mental health evaluations and treatment, drug testing, employment referral or even veteran’s services. With today’s economic situation, the Court has to constantly look for options that will offer appropriate services, while still providing for public safety.***

\* HA (House arrest or curfew - without a GPS unit)

\*\* Please note that all defendants are referred to the Pretrial Program by court order. The program does not make recommendations, but is occasionally asked by the court to interview a defendant, to provide the court with additional information (employment, residence, etc.).

\*\*\* The compiled data in the first 3 columns are based on average monthly computations. The aggregate yearly totals for these columns reflect an average, whereas the other columns are monthly accumulations.

The St. Lucie County Pretrial Program also manages an enhanced supervision / monitoring program for misdemeanor cases from county court, which have been combined with the Pretrial Program statistics in this report.

Total Violations - Combined
